UPPER EAST TENNESSEE

Estimates and Actual Returns From Knox and Other Counties.

(Special to The News.) Knoxville, Aug. 3.—Although returns from East Tennessee counties are still incomplete, those which have been reported indicate a majority for Shields in the senatorial race of more than 12,-000 votes. Roberts' majority over 600 votes. Roberts' majority over Peay in the governor race may ex-ceed 5,000.

J. Will Taylor defeated R. W. Austin in the race for republican nomina-tion for congress from the Second con-gressional district. One of Mr. Tay-lor's slogans was "Pass the office around;" he said that Austin had held public office for thirty years.

Congressman Sells defeated Harmon in the First congressional district. Indications are that he carried every county in the congressional district.

A celebration commemorating the victory of Taylor was held Saturday afternoon at his home town, friends throughout the Second district par-

By Condo TANKS CUT TO PIECES BY GERMANS, SAYS BERLIN

Enemy War Report Declares French and British Suffered Repulse.

Berlin (via London), Aug. 2.—(Friday)—The German official communication issued today dealing with the fighting of Thursday says that the al-lies between Soissons and Fere-en-Tardenols suffered complete repulse

and falled to gain territory.

British and French tanks which crossed the front German lines and reached the heights north of Beugeneux were shot to pieces, according to the re-port. The text of the communication follows:

"Between Soissons and Fere-en-Tardenois the enemy yesterday continued his useless attacks. Strong artillery duels preceded these attacks, which were directed in the morning against our front on both sides of Ville-Mon-toire and in the afternoon extended as far south as Hartennes. They were repulsed before our lines, sometimes in hand-to-hand fighting. Here the en-emy once again suffered complete fail-

ure without any gain in territory.

"Bringing the strongest forces into action, British and French divisions action, British and French divisions attacked in the early morning from the line north of Grand Rozoy and Ferecar-Tardenois. On both sides of Reugneux their tanks crossing our front lines, were able to reach the height north of this place. Here our artillery shot them to pieces.

attacks renewed here in the alternoon were sanguinarily repulsed.

"Between Cramaille and Fere-en-Tardenois attacks by the enemy's infantry, in strong force, and tanks broke down before our line. Strong enemy firing between Fere-en-Tardenois and the Bois Meuniers was followed by intents: attacks only north of Corpus fantry attacks only north of Cierges.

They were repulsed.

"Quiet reigned on the rest of the battile front. In Champagne we have been

Paris.—As was foreseen, the German
retreat from north of the Marne has
taken place. Besting on two pillars—the taken place. Resting on two pillars Chateau-Thiery-Soissons and the Dor-mans-Rheims roads—the rear guards, strongly constituted, have allowed the evacuation of an enormous amount of maierial that was crowded into the Tar-derois pocket. The allied booty nevertheless is considerable,

dorff; he simply mentions "new posi-tions" and "local combats," all pretended to be favorable to the German arms. But the Berlin chief of staff has found it necessary to reassure public opinion by a dissertation on the small importance of the battle in the Tardenois region. It is only a postponement, he says, and the German offensive capacity is still intact. The Americans, he says, only fight amalgamated with French troops. He advises the German people to hold out solidly, both on the battlefield and at home.

I believe the inhabitants of the central ampires even though suffering from hun-

empires, even though suffering from hunger, have ears to hear the successive bad news of the last month from the Playe to the Marne. Ludendorff must be seeking revenge, unless Hindenburg takes his. It looks as if the German dioscuri no longer walk hand in hand. Is it the crown prince separating them?

Gas Service Cooking No Waste of Fuel

The average cooking efficiency of the ordinary kitchen range is actually only from 2 to 3 per cent., according to tests conducted at the State College of Washington. Think of the fuel waste-of the heat waste-of the time waste. Today when every pound of coal must provide every unit of heat that can be extracted, and that unit of heat that can be supplied where there will be no loss of energy—the use of the old, fuel-wasting kitchen stove is a positive drawback to the country's cause.

A Long Step Forward

The use of Gas for cooking-in a modern Cabinet Gas Range-is a long step forward. You can use one burner at a time or all of them-but there is no need to heat the entire stove to fry or boil an egg. The heat is concentrated on the article to be cooked—it is not used to heat up kitchen and cook. Your burner is hot and ready for work instantly-no need to consume fuel to "warm up" the stove.

New, sanitary Cabinet Gas Range now on display. Have one installed now-and help save fuel.
